Freedom of Information Request 1188/26 (Internal Review of 719/25)

Response Date: 6th November 2026

Original Request 719/26

Request for 3rd party information.

Original Response 719/26

South Wales Police hold no information in relation to this request.

New Request 1188/26

I understand the Force's position is that it holds no records. I ask for an internal review of that conclusion, because the search does not appear capable of finding what the request describes.

Response

An internal review has been conducted in a fair and impartial manner and our original position is upheld.

Part VI of the Section 45 Code of Practice places a duty on public authorities to implement a complaints process to ensure that applicants are able to request an internal review if they are not content with an authority's response.

After conducting an internal review of the aforementioned Freedom of Information Request, in a fair and impartial manner, South Wales Police maintains that no information is held.

We have consulted with various departments including; Information Governance, Joint Legal Services, Heritage and Communications and Professional Standards.

1988 (and any records from 1900-1993) would have predated any of our force IT systems, so would have been hardcopies. As for paper records, a search has been completed of the Glamorgan Archives deposits and found no materials held.

Retention of crime, occurrences and intelligence records will generally be in line with the Management of Police Information (MoPI) retention for the respective offence or occurrence type. Any records are deleted unless deemed in the substantial public interest, which may have seen any documentation transferred to the Archives, which does not appear to have occurred on this occasion.

If you remain dissatisfied with this response you have a right to direct your complaint to the Information Commissioner's Office (ICO) using the attached contact details.
